EDUCATION

University at Buffalo

Bachelor of Science in Computer Science

Buffalo, NY

Aug 2023 – Dec 2026

GPA: 3.93

Awards: Innovative Student Leader Award (1 of 2 in 20K), SUNY Chancellor's Award (1 of 15 in 8K), 4x Hackathon Winner (MIT, Stanford, Carnegie Mellon, UCLA), Phi Beta Kappa (top 10% of class), Honors Scholar (1 of 200 in 8K)

WORK EXPERIENCE

SWE Intern

May 2026 – Present

Linde

Buffalo, NY

- Built and shipped an ASP.NET Core MVC application from scratch that replaced paper logging across the plant, saving 3 hours per day
- Designed the SQL Server schema and integrated Active Directory authentication so operators on domain-joined floor laptops were signed in automatically, removing repeated credential entry mid-shift
- Deployed the app on-prem via IIS; built a CI/CD pipeline on Azure for a second internal tool

Research Assistant

Feb 2025 – Dec 2025

University at Buffalo

Buffalo, NY

- Researched an ML model to detect fetomaternal hemorrhage, a condition associated with around 4% of stillbirths
- Built an automated segmentation pipeline that seeds SAM2 with Grounding DINO detections, isolating 2.5M individual cells into pixel-level masks and removing manual per-cell prompting
- Ran Kleihauer-Betke slide data from a Cornell collaboration, improving detection accuracy from 89% to 92%

Technical Analyst Intern

May 2024 – Aug 2024

HCLTech

Dubai, UAE

- Conducted research for a Fortune 500 company across 50+ industry reports on the AI trends in the MENA region
- Analyzed 35+ customer journeys to align product localization with regional infrastructure standards
- Delivered a 45-minute strategy presentation to C-suite stakeholders, influencing tech investment priorities across MENA markets

PROJECTS

Dots | Swift, LiDAR, Python, ElevenLabs, iOS

Apr 2026

- Built an iOS app in 20 hours that converts floor plans or LiDAR room scans into Braille tactile maps, enabling blind users to query their physical environment through an AI voice agent in real time
- Engineered on-device LiDAR scanning in Swift to auto-generate navigable floor plans, cutting ADA compliance costs for SMBs from thousands of dollars to under \$50; won two awards at LA Hacks (1200+ teams)

StreamFair | React, TypeScript, XRPL, Chrome Extensions

Feb 2026

- Built a Chrome extension in 24 hours, compatible with YouTube and Amazon Prime, that enables per-second rental payments using XRPL and RLUSD micropayments, eliminating upfront full-price charges
- Addressed pay-per-view rental waste where 50%+ of viewers abandon videos early yet lose 100% of the rental fee, common on YouTube and Amazon Prime rentals; won the Ripple track at CMU Hackathon
- Implemented engagement-based pricing that pays creators based on how long viewers watch, not upfront fees

LEADERSHIP EXPERIENCE

Co-Founder

Jul 2023 – Present

Men In Green

Agra, India

- Founded an informal organization screening Indian military-academy candidates for correctable medical disqualifiers, after ranking in the top 400 of 500,000 on the national entrance exam
- Screened 450+ candidates and cleared 3 to commission as officers who would otherwise have been disqualified

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL, TypeScript

Frameworks: React, Node.js, FastAPI

Interests: Impressions, Geopolitics, Public Speaking, Badminton, Golf
